

# CLEANLINESS & WELL-BEING

In addition to following Airbnb's enhanced "Clean and Tidy" protocols, Daydream's Clean Pledge offers additional safety measures to ensure our residents and guest's wellbeing.

## HOMESHARING IN-ROOM ENHANCEMENTS

- Contactless check-in and check-out.
- Cleaning teams are using hospital-grade cleaning and disinfectant products throughout the building and guestrooms.
- Wellbeing Kits to every guest – includes masks, hand sanitizers, and disinfectant wipes.
- Clean Room Seal – this seal indicates to guests that their room has not been accessed since being thoroughly cleaned and sanitized.
- Resident linens are replaced with fresh hotel-grade linens before every visit. Linens are washed with high heat temperatures.

## PROPERTY-WIDE

- Frequent cleaning and disinfecting of high-traffic and high-touch public areas are completed across the property with hospital-grade cleaning solutions.
- Hand sanitizer and disinfectant wipes are available at each entrance and common areas.
- State, local, and CDC required social distancing protocols are strongly encouraged all areas.
- Nightly electrostatic spraying to all common areas.
- Plastic shields at staffed concierge desk.

## STAFF & TRAINING

- All staff are following all CDC guidelines including practicing proper hand-washing techniques, have been reminded not to touch their faces, and are maintaining social distancing protocols.
- Providing disposable disinfectant wipes so that commonly used surfaces (for example, doorknobs, keyboards, remote controls, desks, etc.) can be wiped down by employees before each use.
- Staff wear personal protective equipment (PPE) including gloves and sanitary masks during direct interactions with residents, guests, and while handling packages.
